FSS Frequencies

SLC Center Frequencies

Montana Aeronautics Division

1 January 2002

Montana Pilots:

Thank you for your purchase of our 2002 Montana Airport Directory. We hope that it will assist you in your flights throughout the big sky country of Montana.

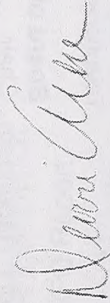

Although this directory reflects the most current information known to us, we depend upon your help to keep it as accurate and up to date as possible. In your travels throughout the state, if you observe any changes, corrections or unsafe airport conditions, please fill out and return the hazard report form in the back of this directory or call our office at (406) 444-2506. Your comments and suggestions on new ways to improve our directory are always welcome.

Although fuel availability is listed in the directory, actual availability may be intermittent. In addition to JET A and 100 octane, some fixed based operators also offer automobile gasoline for aircraft holding the appropriate STC. We suggest that you contact your destination FBO prior to departure to insure availability of your required fuel. Please see pages A-20 thru A-24 for a directory of FBOs throughout the state.

It is also important to point out that many smaller Montana airports are unattended and there is the possibility of an adverse condition such as unplowed snow, inoperative lights, soft wet turf, unmowed tall grass, livestock on runway, etc... which may not have been reported by a NOTAM. It is strongly recommended that if you are flying into one of these low use airports you contact the airport manager or owner prior to departing for a current, first hand update on airport conditions.

On behalf of the entire Aeronautics Division and Board, I would like to thank all Montana pilots and aviation enthusiasts throughout the state for your fine support of the Montana Aeronautics Division.

Best regards and safe flying,

Debbie K. Alke, Administrator
Montana Aeronautics Division

This airport directory has been compiled from information submitted by airport owners, flight operators, interested pilots, and inspections by the FAA and the Aeronautics Division. Every effort has been made to provide a complete and accurate directory. Because airport conditions are constantly changing, the Montana Aeronautics Division assumes no responsibility for any action taken by a pilot on the basis of information contained herein.

Pilots are reminded it is their responsibility to check FAA Notices to Airmen for current information, the Airport Facility Directory, as well as making a visual inspection of the airport before using.

Forty-first edition revised to November 2001.

- 17. Destination and contact

Rules Pertaining to Aircraft Accidents, Incidents, Overdue Aircraft and Safety Investigations

(National Transportation Safety Board Procedural Regulations, 49 CFR 830 (in part))

1. Immediate Notification

The operator of an aircraft shall immediately, and by the most expeditious means available, notify the nearest offices of the National Transportation Safety Board, Bureau of Aviation Safety Field Office when:

- A. An aircraft accident or any of the following listed incidents occur:
 - 1. Flight control system malfunction or failure
 - 2. Inability of any required flight crew member to perform his normal flight duties as a result of injury or illness
 - 3. Turbine engine rotor failures excluding compressor blades and turbine buckets
 - 4. In-Flight fire
 - 5. Aircraft collide in flight
- B. An aircraft is overdue and believed to have been involved in an accident.

2. Manner of Notification

The most expeditious method of notification to the National Transportation Safety Board (NTSB) by the operator will be determined by the circumstances existing at the time. The NTSB has advised that any of the following would be considered examples of the type of notification that would be acceptable:

- A. Direct telephone notification
- B. Telepathic notification
- C. Notification to the FAA, who would in turn notify the NTSB by direct communication

3. Reports

The operator shall file a report on NTSB form 6120.1 or 6120.2 available for the NTSB field offices, or the NTSB, Washington D.C., 20594. The report shall be filed:

- A. Within ten (10) days after an occurrence for which notification is required as per section 1. A & B (above)
- B. When, after seven (7) days, an overdue aircraft is still missing
- C. Upon request of an authorized representative of the NTSB
 - 1. Each crew member, if physically able at the time the report is submitted, shall attach thereto a statement setting forth the facts, conditions and circumstances relating to the accident or occurrence as they appear to him to the best of his knowledge and belief. If the crew member is incapacitated, he or she shall submit the statement as soon as he or she is physically able.

Light Gun Signal Procedures For ATC

Signals from a portable traffic control light mean the following:

Color and type of Signal	On the Ground	In Flight
Steady Green	Cleared for take-off	Cleared for landing
Flashing Green	Cleared for taxi	Return for landing (to be followed by steady green at proper time)
Steady Red	Stop	Give way to other aircraft and continue circling
Flashing Red	Taxi clear of landing area (runway in use)	Airport unsafe – do not land
Flashing White	Return to starting point on airport	(No meaning)
Alternating Red and Green	Use extreme caution	Use extreme caution

Standard Left Traffic Pattern

For Landings

- Enter pattern in level flight, abeam the midpoint of the runway, at pattern altitude.
- Maintain pattern altitude until abeam approach end of the landing runway, on downwind leg.
- Complete turn to final at least $\frac{1}{4}$ mile from runway.

For Take-Offs

- Continue straight ahead until beyond departure end of runway.
- If remaining in the traffic pattern, commence turn to crosswind leg beyond the departure end of the runway, within 300' below the traffic pattern.
- If departing the traffic pattern, continue straight out or exit with a 45° left turn beyond the departure end of the runway after reaching pattern altitude.

Butte	BTM	494-1870	(F) 137.175
Cut Bank	CTB	873-2939	(F) 119.025
Dillon	DLN	683-5470	(F) 135.225
Glasgow	GGW	228-8294	(F) 135.175
Glendive	GDV	687-3346	(W) (F) 135.075
Great Falls	GTF	452-9844	452-9849
Havre	HVR	265-6638	(F) 135.225
Helena	HLN	443-4317	443-4905
Kalispell	FCA	756-8879	(F) 135.275
Lewistown	LWT	538-2653	(F) 118.375
Livingston	LVM	222-2338	(F) 135.275
Miles City	MLS	232-1465	(F) 135.575
Missoula	MSO	728-3743	728-3742
Mullan Pass	MLP	(ID) 208-744-1721	(F) 135.475
Sidney	SDY	482-7323	(W) (F) 119.275
Wolf Point	OLF	653-3865	(F) 118.325

(F) = Frequency

(O) = Weather Observer on Field

(W) = AWOS

Please Note

When receiving weather information from an AWOS/ASOS either by telephone or radio frequency, all wind directions are given in magnetic headings. When receiving a printed meteor report or receiving the AWOS/ASOS weather information from the flight service station, all winds are given in true headings.

Custom Services Available at Listed Airports

Billings, Logan Int'l ADCUS LRA

Limited service Customs location. Normal hours are Monday thru Saturday, 08:00 to 20:00. Closed Sundays and holidays. Call 895-2637 (Canada/US toll free 1-877-697-5436) to arrange for Customs services. Two hour advance notice required. Call 453-0861 to inquire about overtime charges or other questions. Customs officers on field can be reached at 255-4496, 494-3492 and 563-3172.

Butte, Bert Mooney ADCUS LRA

Full service Customs location. Normal hours are Monday thru Friday, 08:00 to 17:00. Closed Saturday, Sunday and holidays. Call 494-3492 to arrange for Customs services. Two hours advance notice is required. Contact GTF FSS or call 761-7110 to update arrival times or change flight plan. Call 494-3492 during normal business hours to inquire about overtime charges or other questions.

Cut Bank, Cut Bank ADCUS AOE

Limited service Customs location. Normal hours are Monday thru Friday, 08:00 to 20:00, although times vary. Call 895-2637 (Canada/US toll free 1-877-697-5436) to arrange for Customs services. Two hours advance notice required. Call 453-0861 to inquire about overtime charges or other questions.

Del Bonita, Port of Del Bonita ADCUS AOE LB

Limited service Customs location. Normal hours are from 0900-1700 Mon thru Sun. Call 336-2130 to arrange for Customs services. One hour advance notice not required. Must land at least 1/2 hour before close, no call-out after business hours. Canadian Customs also available, call 403-758-3613 for details.

Glasgow, Glasgow Int'l ADCUS LRA

Limited service Customs location. Normal hours are Monday thru Friday, 08:00 to 17:00. Call 895-2637 (Canada/US toll free 1-877-697-5436) to arrange for Customs services. Two hours advance notice required. Call 453-0861 to inquire about overtime charges or other questions. Customs officers on field can be reached at 228-8239.

Great Falls, Great Falls Int'l

ADCUS AOE

Full service Customs location. Normal hours are 24 hrs, 7 days per week. Call 453-0861 to arrange for Custom services. One hour advance notice required. Contact GTF FSS or call 761-7110 to update arrival times or change flight plan. Customs officers on field can be reached at 453-0861.

Havre, Havre City-County

ADCUS LRA AOE

Limited service Customs location. Normal hours are Monday thru Friday 08:00 to 20:00. Call 895-2637 (Canada/US toll free 1-877-697-5436) to arrange for Customs services. Two hours advance notice is required. Call 453-0861 to inquire about overtime charges or other questions. Customs officers on field can be reached at 630-4053 and 630-4054. If Customs cannot be reached, call the sheriff's office at 265-2512.

Helena, Helena Regional

ADCUS

Limited service Immigration airport. Normal hours are Monday thru Friday, 07:30 to 16:00, although agents are on call 24 hrs. Call 449-5771 or 449-5444 or contact their answering service at 449-1024 or contact the inspector's pager at 449-1569 to arrange for immigration services. One hour advance notice required. If Immigration cannot be reached, call Customs at 453-0861.

Kalispell, Glacier Park Int'l

ADCUS LRA

Limited service Customs airport. Normal hours are Monday thru Sunday, 08:00 to 20:00. Call 895-2637 (Canada/US toll free 1-877-697-5436) to arrange for Customs services. Two hours advance notice required. Call 453-0861 to inquire about overtime charges or other questions. Customs officers on field can be reached at 257-7034

Missoula, Missoula Int'l

ADCUS LRA

Limited service Customs airport. Normal hours are Monday thru Saturday, 08:00 to 20:00. Call 895-2637 (Canada/US toll free 1-877-697-5436) to arrange for Customs services. Since agents must come from Butte, four hours advance notice required. Call 453-0861 to inquire about overtime charges or other questions.

Scobey, East Poplar Int'l

ADCUS AOE LB

Limited service Customs location. Normal hours are from 0900 to 1800 Mon - Sun (10/1-5/14), and, from 0800-2100 Mon - Sun (5/15-9/30). Call 783-5375 or 783-5372 to arrange for Customs services. No Customs services available after office hours (no call out). See East Poplar Airport in directory for additional remarks. Canadian Customs also available, call 306-267-2177 for details.

Sweetgrass, Ross Int'l ADCUS LB

Limited service Customs airport. Normal hours are 09:00 to 17:00, 7 days a week. Call 335-2434 to arrange for Customs services. One hour advanced notice required. Call ahead for times when overtime applies and for after hours assistance. Canadian Customs is also available, call 403-344-3766 for details.

West Poplar, West Poplar (Canada) CANADIAN

Airport of Entry for Canada only. No US Customs available for aircraft. Office hours are 0800-2100 Mon - Sun (6/1-9/15), and, 0900-1800 Mon - Sun (9/16-last Sun in Oct), and, 10:00-19:00 Mon - Sun (last Sun in Oct-first Sun in Apr), and, 09:00-18:00 Mon - Sun (First Sun in Apr-5/31. Canadian customs officials can be reached at 306-476-2320 or 888-226-7277. No call-out provisions for after business hours. U.S. Customs office on border can be reached at 724-3212.

ADCUS: The Flight Service Station is able to call ahead for pilots when enough time is granted to make arrangements with customs officials at airports which are listed as ADCUS. It is always advisable however for pilots to call ahead to customs themselves to get all pertinent data and arrange well ahead of time with customs officers. It is ultimately the pilot's responsibility to see customs is notified.

AOE: Airport of Entry

LB: Land Border. The airstrips at these airports are turf and may harbor hazardous or unusual conditions. Pilots should be familiar with local conditions before using these sites. These airstrips to be used during daylight hours only

LRA: Landing Rights Airport. To land at airports identified as LRA, pilots must obtain specific permission to land in advance of use. Permission may be denied.

NOTES: All area codes are 406 unless otherwise noted. Overtime charges not to exceed \$25. Regular hours of duty are normally 0800-1700, Monday through Friday, except where noted. Customs request that contact be made during business hours regardless of arrival time. Overtime charges may also be charged any day after office hours. For gateway outside of Montana, call 1-800-98-CLEAR (1-800-982-5327). For information regarding CANPASS, the automated Canadian Customs clearing system, call 1-888-CANPASS (1-888-226-7277). To arrange Customs services toll free at the airports of Kalispell, Missoula, Cut Bank, Havre, Galsgow and Billings, call 1-877-697-5436. Pilots are solely responsible for notifying Customs in advance and obtaining landing rights, do not depend on the FAA to do this for you. Flight plans are mandatory on international flights, they are not opened or closed automatically. **Check Ahead!**

US Customs Supervisory Inspector, Great Falls 453-0861
US Customs Arrival Notifications and Landing Rights 895-2637
FAA Flight Service Station, Great Falls 761-7110

Mountain Flying Tips

General items

- Make sure that your proficiency level and your aircraft meet the special demands of your planned flight.
- If you are not sure of your capabilities, take some dual instruction from a flight instructor experienced in mountain flying.
- Keep your aircraft as light as possible.
- Be familiar with your planned route of flight and destination airport. Check the field conditions with FSS or experienced local pilots. Familiarize yourself in advance with the field length, elevation, and any special approach/departure procedures.
- Obtain a thorough weather briefing. A forecast of marginal VFR frequently translates to IFR in the mountains.
- Plan your trip for early morning or evening hours. Turbulence and density altitude are usually greatest from 10:00 am to 6:00pm.
- Stay out of the mountains if the forecast winds aloft exceed 25 knots below 12,000 MSL. The wind velocity can double in vicinity of mountain passes and canyons. Never fly up a blind or narrow canyon.
- Mountain winds follow contours much like a stream. The air on the lee (downwind) side of a mountain may be extremely turbulent. Fly on the upwind side of a canyon whenever possible.
- Cross-check your instruments and attitude indicator frequently. Visual horizons in the mountains may be illusory.
- Maintain your airspeed in downdrafts and don't panic. Be able to turn to lower terrain at all times.
- Approach ridges at a 45-degree angle. If caught in a downdraft, you must be able to turn away toward lower terrain.
- Be courteous to those on the ground who are enjoying a wilderness experience. Maintain sufficient altitude - 2,000 AGL is suggested over wilderness area.
- Plan your trip over valleys as much as possible.
- Carry a good survival kit and familiarize yourself with its use.

Landings

- Transmit in the blind on 122.9 MHz at non-unicom airstrips and announce your intentions.
- A good check out and personal knowledge of conditions existing at "non-standard" airports/airstrips is essential to a safe operation. Some mountainous airstrips are, or should be, considered "one way". Although normally we are taught to land uphill, there are a number of airstrips where downhill/downstream landings are safer. A go-around must always be considered. Wet grass reduces braking action and most mountain airstrips are short.
- Control your rate of descent with power. Maintain a stable airspeed (generally the short field approach speed listed in your aircraft operations manual).
- Before beginning your approach, circle your intended destinations to ensure that the field is clear of other aircraft, livestock, wildlife, etc.
- Abort your approach if the air becomes too turbulent on your let down. Avoid low altitude maneuvering. Be alert for animals on the runway.

Take-Off

- ***Check density altitude!*** (If take-off performance for your aircraft is questionable, wait until evening or early morning when the air is cool.)
- Remember that tall grass or soft field conditions can add considerably to your take-off distance.
- Choose a go, no-go point on the runway. If not airborne at that point, abort the take-off and wait for better conditions.
- Take-off downstream (downhill) whenever possible. Avoid taking off toward rising terrain.

Survival

Immediately after an emergency landing, exit the aircraft if at all possible. Check for injuries. Give only temporary first-aid and carefully removal those with serious injuries.

Stay away from the aircraft, if possible, until engines have cooled and spilled gasoline has evaporated.

After occupants are all out and a safe distance from the aircraft, reevaluate injuries and administer first-aid as necessary. If the weather is adverse, make or find temporary shelter. Evaluate your location dangers: fire, sliding, rockslides, avalanche, terrain, weather.

Stay near the aircraft if at all possible. It contains the basic ingredients for warmth, shelter and signaling materials.

Turn on or make sure that your ELT is on.

Signal for help. Do not neglect your aircraft radio. It's possible it may still be operational. Turn on squelch and volume and key the mike. If the results are positive, listen on local or ATC frequency. When you hear a transmission transmit "MAYDAY-MAYDAY". If you should hear a jet, transmit on 121.5. All airlines and military aircraft monitor 121.5. If you do not hear any transmissions go ahead and transmit in the blind on this frequency. Limit your transmissions to about one every 15 minutes. Transmitting places considerably more drain on the battery than receiving. If both your ELT and radio are working, you will hear the ELT signal when listening on 121.5. It may be necessary to turn the ELT off when transmitting or listening on 121.5. (Don't forget to turn the ELT back on!)

If the weather is cold or wet you don't spend too much time trying to signal. Your prime effort must be directed toward conserving the energy you have.

The wings, rudder, etc., all may be used to make a shelter. Keep this shelter as small as possible to lessen the area your body must heat. Insulate shelters with boughs, bark, tarps, maps, etc. Use anything to keep the rain from getting inside your shelter. Body heat loss is energy loss.

Your aircraft can fulfill most of your basic needs if you improvise. Think basic needs: shelter (cover), warmth (fabric), tools (metal). Maps, newspaper, engine cover, plastic tarps all make excellent emergency bedding.

Build a fire, if possible. Don't forget that the aircraft gasoline is a valuable resource in starting a fire when only wet wood is available. Caution must be used when using gasoline. Soak or pour gasoline on the wood but be sure the container is out of reach when igniting the wood.

Paper such as charts can also aid in getting a fire started.

However, do not burn your charts for firewood. Paper makes an excellent insulation for bedding, clothing and shelter. Note: Pre-plan building a fire. Have an adequate amount of wood gathered to keep the fire going for a length of time prior to lighting.

In cold weather, insulation and upholstery from the craft make excellent material for overboots, sleeping bags, mittens, hats, and ground insulation. Sew them together with salvaged aircraft wire. Put plastic side out for better wetness protection.

If running water is not readily available, melt snow or ice in improvised pot, or squeeze dewdrops from aircraft surfaces. Place a sheet of plastic flat on the ground so that it may collect dew or condensation. If it is raining, place plastic sheet in ground depression to collect water.

Keep your signal fire burning all the time. Smoke and firelight can be seen from great distances. Both air and ground searchers will be looking for them.

Aircraft should be made **visible from the air**, if possible. Clear brush, cut trees, etc. Be prepared to make signals as aircraft approach your area. Keep the mirror handy if the sun is shining. Practice its use.

Get your emergency signaling devices ready and have signal equipment handy. Every possible effort must be made to attract searchers to your location by signals and to sustain life and energy until assistance arrives.

Colored panels can tell a message. Pile brush in SOS. Stamp large, two-foot-wide letters SOS in the snow. Fill stamped marks with boughs or small brush.

Clear windows make a fair emergency mirror. **Signals make you effectively bigger.**

Caution: Survival will depend greatly upon your state of mind. Psychological discipline is a must. You must sustain life until rescued. Remain clam! Think!

Example Survival Kit

Compass	Knife
Tool Kit (small, lightweight)	50' 1/8" nylon rope
First-Aid kit	Garbage sacks
Food (freeze dried, candy bars, etc)	Fish hooks, sinkers and line
Disposable space blankets	Can opener, sierra cup
Lightweight folding saw	waterproof fire starter
Waterproof matches and lighter	Sterno fuel and candle
Signaling devices or flares	pad and pencil
Mirror, small flashlight	Parka and sleeping bag
Gun and ammo	Canteen with water

How to Obtain Permission to Use a U.S. Forest Service Permit Only Airstrip

There are a significant number of airstrips owned by the U.S. Forest Service that are restricted public use airports. These airports are usually unimproved, backcountry turf strips. In order to use one of these airstrips, you need to obtain a USFS Special Use Permit Application (form FS 2720-3). These are available at any USFS office. Once the form is completed, it needs to be sent to the appropriate district ranger. The district ranger then approves or denies the request. The decision is not subject to appeal. Examples of airstrips that are owned by the USFS are the Wurtz and Sanderson airstrips located on the North Fork of the Flathead river. For further information, contact the USFS at 406-387-3800.

Seaport Regulation Information

Federal Regulations

U.S. Army Corps of Engineers

Seattle District -206-764-3742

Libby Dam (Lake Koocanusa)

OPEN, 24-hr. mooring, 500' from occupied public sites, 500' from dam

Omaha District - 402-221-3020

Fort Peck

OPEN, obtain map of restricted areas from corps. (Ask for latest edition, some new restrictions have been charted).

U.S. Forest Service

Beaverhead National Forest-406-683-3900

Closed to Seaplanes.

Bitterroot National Forest-406-363-7121

No seaplane restrictions.

Lake Como

Painted Rock Lake

No seaplane restrictions.

No seaplane restrictions.

Custer National Forest-406-657-6321

No waterbodies within the boundaries of this Forest that could support seaplane operations. Cedar River and Grand River Grasslands - no waterbodies to support seaplane operations.

Deerlodge Naiton Forest-406-496-3400

Delmore Lake CLOSED to motor craft greater than 25-hp
Homestake Lake CLOSED to all motorized craft
Lowland Lake Closed to all gasoline motors

All waters in the Anaconda Pintlar Wilderness Areas closed to motorized use.

Flathead National Forest-406-755-5401

Lakes in Bob Marshall, Great Bear and Mission Mountains Wildernesses and the Jewel Basin Hiking Area closed to motorized vehicles and equipment, as are segments of the Flathead River System that have been designated Wild and Scenic.

The following bodies of water are OPEN:

Hungry Horse Res.	Lindberg Lake	Holland Lake
Tally Lake	Bitterroot Lake	

Gallatin National Forest-406-587-6701

No seaplane restrictions.

Helena National Forest-406-499-5201

No seaplane restrictions.

Kootenai National Forest - 406-293-6211

Lakes and reservoirs within the Kootenai National Forest Boundary are generally open to seaplane landings with the exception of Cabinet Mountain Wilderness.

Lewis and Clark National Forest-406-791-770

Crystal Lake CLOSED to internal combustion engines

Forest Lake

CLOSED to internal combustion engines

Lolo National Forest-406-329-3750

Most bodies of water in the forest are too small to land seaplanes.

State and Local Regulations

Aeronautics Division, Department of Transportation

Helena-406-444-2506; FAX 406-444-2519

No state seaplane regulations.

Seaplane Landing Areas

(Many areas are private use facilities)
(Prior notice is recommended)

Chester Lake Elwel 19 mi. SW of city. **Telephone:** 800-869-8422. **Transportation:** Courtesy Car. **Food:** Available. **Fuel:** Auto fuel by fuel truck from Tiber Marina, NE shore of lake. **Notes:** Additional phone: 406-759-5200. Showers & RV hookups available. Frontier Aviation, Joe Fenger, 406-759-5431.

Dillon Beaverhead Marina & Park SPB **Location:** Clark Canyon Reservoir, 20 Mi. S of city. **Telephone:** 406-683-5556. **Hours Attended:** Daily. **Mooring Facilities:** Docking. **Food:** Buffalo Lodge 683-5535.

Ft. Benton Lohse Air Spray **Location:** Missouri River. **Telephone:** 406-622-3323. **Fuel:** Need can to haul 100LL fuel from airport. **Notes:** Land on Missouri River E of bridges, dock at city park dock and ramp. Call airport for transportation and fuel. Not updated.

Jordan Hell's Creek Marina SPB. **Location:** Ft. Peck Lake, 25 mi. N of city. **Telephone:** 406-557-2345. **Hours Attended:** 7am-9pm. **Mooring facilities:** Docking: Ramp. **Food:** Available on site. **Lodging:** Available on site. **Camping:** Available on site. **Notes:** Emergency use only.

Libby Kootcanusa Lake Resort & Marina **Telephone:** 406-293-7548. **Food:** Café. **Lodging:** Cabins. **Camping:** Available. **Fuel:** Auto at dock; 100LL available from Libby Airport. **Credit Cards Accepted:** Yes. **Notes:** Sheltered cove on very long lake. Not updated.

Miles City Yellowstone River **Fuel:** Call 123.0 or 406-232-1021 (Falcon Aviation) For delivery. **Notes:** Rocky, approach with care, very shallow. Be prepared to carry gas in cans. Not recommended if you want to preserve floats. Not updated.

Polson (8S1) Polson Aeroworks SPB **Location:** Flathead River, .5mi. SW of city. **Coordinates:** NO47°-42.7'; W114°-11.1'. **Waypoint:** 8S1 112.8. **Telephone:** 406-883-9392 & 406-883-9393. **Hours attended:** 8:00am to 6pm. **Elevation:** 2925'. **Pattern altitude:** 4000'. **Landing lanes:** 18-36-500'x 300' **Obstructions:** Rocks on E. shoreline. **Mooring facilities:** Beaching; Pullout. **Frequencies:** Unicom 122.8. **Sectional:** Great Falls. **Transportation:** Rental cars and taxi. **Food:** Qua-Tuk-Nuk; Lake City Bakery; McDonald's; El Rancho; China Gate. **Lodging:** Super 8, 883-6251; Qua-Tuk-Nuk, 800882-6263; Port Polson, 883-5385 within 1-2 miles. **Camping:** available on field. **Local attractions:** Flathead Lake; Glacier National Park; National Bison Range; Big Mountain Ski Resort within 75 mi. **Services:** Repairs; Flight instruction; Automobile & aircraft rental. **Fuel:** (delivered on call) Jet A; 100LL. **Credit Cards accepted:** All types.

Poplar Dallas Aero & Sales **Location:** Missouri River. **Telephone:** 406-768-3800. **Fuel:** 100. **Notes:** Call ahead for instructions on where to land on river. Dallas O'Connor, operator, is willing to bring fuel to river. Not updated.

Seeley Lake (M35) Lindey's Landing West SPB **Location:** Seeley Lake, 1 mi. NW of city. **Coordinates:** NO47°-10.5'; W113°-28.8'. **Telephone:** 406-677-9229. **Hours attended:** Daylight, June-Sept; Unattended, Oct-May. **Elevation:** 3,993'. **Landing Lanes:** 12-30; 14,000x1,000. **Mooring Facilities:** Docking. **Frequencies:** Unicom 122.9. **Sectional:** Great Falls. **Weather:** 406-671-7110.

Somers Flathead Lake **Telephone:** 406-257-o7678. **Transportation:** Rental car. **Fuel:** 100LL. Owner will bring fuel to marina. **Notes:** Not updated.

Whitefish Stillwater Landing SPB **Location:** Lower Stillwater Lake, 12 mi. NW of city. **Coordinates:** NO 48°-52.2'; W114°-34.5'. **Waypoint:** FCA 108.4 303□ 25 mi. **Telephone:** 406-881-2553. **Hours Attended:** Seasonal. **Elevation:** 2,780'. **Pattern Altitude:** 3,800'. **Mooring Facilities:** Beaching; Docking. **Sectional:** Great Falls. **Food:** Grouse Mountain Lodge 10 mi. 862-3000; Comfort Inn 12 mi. **Camping:** on site: **Local Attractions:** Big Mount Ski Area 12 mi.; Glacier National Park 35 mi.

Wolf Point Missouri River **Fuel:** Available via truck from French Aviation, 406-653-1740. **Notes:** Located 3 mi. s of airport. Dock is 1/4 mi. W of bridge. Two power lines W of the bridge, swift current, water level fluctuates. Not updated.
